

UK LOCATION INSPIRE DATASET REPORT AT 25 MAY 2012

Purpose

This report provides an overview of the datasets Data Providers plan to publish to UK Location for INSPIRE. The report lists datasets that contain some or a majority of spatial objects defined by INSPIRE data specifications.

The report is produced for the UK Location Programme Board and is updated regularly. The report is published more widely to share knowledge and to provide guidance to potential Data Providers.

The data in the report has been collated from a wide range of sources, including 1:1 conversations with Data Providers; Theme Group discussions; The 2011 INSPIRE Monitoring Report; and suggestions from third parties (e.g. Board members).

Disclaimer

The positions/decisions documented in the report do not represent policy and are in no way binding. The report is provided without warranty. The report is not suitable for use as a measure of the performance of UK Location.

The responsibility for selection and publication of datasets rests with Data Providers. UK Location works closely with Data Providers to ensure a coordinated approach is taken for each Theme and that decisions are as consistent as possible. The unit is also responsible for monitoring INSPIRE compliance.

Explanation of fields in report

Field	Explanation
Dataset ID	Internal reference number for dataset – <i>please use this if contacting us about a dataset</i>
Dataset	Title of dataset
Organisation	The Data Provider who owns the dataset
Metadata Exists	A metadata record exists for the dataset
Metadata Complies	A GEMINI 2.1 (INSPIRE) compliant metadata record exists for the dataset
Metadata Registered	The dataset is registered with data.gov.uk
View Exists	A View Service (WMS) exists for the dataset (initial operating capability)
View Complies	A fully-compliant INSPIRE View Service exists for the dataset (meets all performance criteria)

View Registered	The WMS is registered and accessible in data.gov.uk
Download Exists	A Download Service exists for the dataset
Download Complies	An INSPIRE compliant Download Service exists for the dataset
Download Registered	The Download Service is registered with data.gov.uk
Decision Log	A record of key decisions relating to the dataset and reasons for these

Known Issues

This report represents the best known intelligence at a point in time and is therefore work in progress rather than a definitive statement and subject to a number of issues.

Known Issues

The data in the report is incomplete. Gathering monitoring data is an ongoing process. As we move forward, the data in the report should become more complete.

The report only relates to the publication of existing datasets

Whilst the report includes Annex II & III datasets it should be noted that until Data Specifications are published for these themes we can't confirm if the datasets listed must be published under the Directive. Data from the 2011 INSPIRE Monitoring Report for Annex III datasets has not been transposed into this report.

Recent guidance from the Commission has clarified the scope of themes and features in-scope. A number of datasets have been removed from this report as they are currently being reviewed with Data Providers/Theme Groups in light of this information.

In the Dataset field some records list features rather than datasets or lists the datasets name and lists the features within the dataset that fall within a theme.

Some of the data in the report requires further validation from Data Providers.

Further Information

For further information on this report please contact the UK Location Coordination Unit via the [UK Location Website \(http://location.defra.gov.uk/contact-us/\)](http://location.defra.gov.uk/contact-us/).

INSPIRE Dataset Report

Datasets that contain some or a majority of spatial objects defined by INSPIRE data specifications

This report shows the situation at: 25 May 2012
