US

DON'T EAT AT

Consumer business

## Challenge/Opportunity

- By alerting users about restaurants with poor hygiene ratings, the app connects users to New York City Health Department data on hygiene violations by restaurants and enables them to make informed choices regarding 'out-of-home' eating

## Approach/Solution/Business model

- Free
- **Type:** App based reuse

## Open data used

- New York City Public Restaurant Inspection Dataset
- Foursquare API

## Benefits

- Transparency
- Citizen services
