# Find Properly

Find Properly is mobile app that helps users locate and search rental apartments based on their specific preferences. The app uses data from Zoopla, 2011 Census, and statistics from data.gov.uk

Situation

- Property search engine that allows users to search by journey time from places they visit daily and filter by area statistics.
- The app also allows users to specify requirements such as green space, tube zone, crime etc. The saved search is shareable with friends
- **Developed by**: Find Properly
- **Organisation type**: SME
- **Contact:**

  Peter Thum-Bonnano
